PUBLIC ADMINISTRATION MAJOR WITH A CONCENTRATION IN HEALTH POLICY AND MANAGEMENT (M.P.A.)

The M.P.A. degree serves students interested in careers in the public and nonprofit sectors. The program is professional in nature, and stresses development of managerial and analytical skills, as well as ethical and professional values. All courses are scheduled for the convenience of working students, and the program is offered throughout the year. Many students in this program have 5-10 years of professional experience. However, prior work experience is not a requirement for admission to the program or necessarily an indicator of success in it. The program is also appropriate for students wishing to transition from private to public or nonprofit sector careers. The three M.P.A. concentration areas are as follow:

- Public Service: Leadership, Governance and Policy - for students interested in learning to manage complex public policy issues in a global society, and craft creative solutions to public sector issues.
- Nonprofit Organization Management - for those seeking an understanding of the nonprofit and philanthropic sector and skill development in areas such as board staff relations, fundraising, volunteer management, financial management, and grantsmanship.
- Health Policy and Management - for students interested in an understanding of healthcare-related administration and healthcare policy issues and in particular the relationship between healthcare delivery by the nonprofit and public sectors.
- Data Visualization and Analytics – for students interested in understanding the ways that data sciences interact with and influence the public and nonprofit sectors.

Admission Requirements for the M.P.A. Program

Anyone with a baccalaureate degree from an accredited college or university is eligible to apply for admission to the M.P.A. program. Applicants who are confident that they are ready to succeed in a graduate program but do not meet the M.P.A. admissions criteria may be offered conditional acceptance. Candidates granted conditional acceptance must achieve a cumulative GPA of 3.0 in their first four graduate courses at Seton Hall.
