

# HIGHER EDUCATION (ED.D.)

The Ed.D. program in Higher Education prepares students for careers in leadership positions at colleges and universities. The department offers one Ed.D. program in Higher Education.

## Admissions Requirements

Admission will be open to holders of master's degrees from accredited colleges or universities. Faculty will evaluate each applicant based on the following criteria and materials:

- Statement of purpose.
- Official undergraduate transcript.
- Official graduate transcript.
- Two letters of recommendation from academic and/or professional references; and
- Current résumé.
- Applications are twice per year, with fall entrants being reviewed in March and spring entrants being reviewed in October.

## Course Requirements

Students must complete a minimum of 45 credit hours, as listed below. Credits earned from other institutions or other programs at Seton Hall cannot be transferred and applied to the 45 credit requirement.

## Other Requirements

### Comprehensive Exam

The comprehensive exam is a review of existing literature in the area of the student's intended dissertation topic. Exams are administered twice a year, once per fall and spring semester. Students should take the exam during the same semester they take ELMP 9979 Dissertation Seminar in Higher Education I, or the semester immediately following completion of that course. Possible scores include Pass or Fail. Students have up to two chances to pass the comprehensive exam. In the event of two failures, the student will be dismissed from the doctoral program. Not sitting for the exam during an administration in which the student was directed in writing to do so (e.g., in the case of a retake), without appropriate documentation of a reasonable exception, will be counted as an automatic failure for the exam. Signing up for the exam and not submitting work will also count as a failure. Students may not defend their dissertation proposal or enroll in Dissertation Advisement until they have successfully passed the comprehensive exam.

### Dissertation Proposal

Students must have a documented, successful defense of their dissertation proposal, signed and dated by dissertation committee members. A successful proposal defense is a required intermediate stage of the dissertation process. More detail is in the department dissertation handbook.

### Dissertation

Students must complete a dissertation and successfully defend their work with their dissertation committee. More detail is in the department dissertation handbook.
