II. Spiritual Formation

In addition to coursework and field education requirements noted above, non-ordination track M.Div. students must complete a "Foundational Spiritual Experience," meet with a spiritual director, and complete an annual retreat.

The "Foundational Spiritual Experience" is a cognitive and experiential introduction to the spiritual life. This year-long program explores movements in the spiritual life. Liturgy, instruction, faith-sharing, and communal prayer are some of the elements.

A list of recommended spiritual directors, persons associated in some way with the School who are familiar with the program and its goals, is available from the Associate Dean.

A retreat of several days must be made annually during the course of studies. When the retreat has been completed, the student should inform the Associate Dean.
