

COMMUNICATION/DIPLOMACY AND INTERNATIONAL RELATIONS DUAL DEGREE M.A.

Subtotal	15
Total Hours	57

The School of Diplomacy and International Relations participates in graduate dual degree programs with the Seton Hall School of Law, the Stillman School of Business, the Department of Public Administration and the Program in Strategic Communications. Each program has its own admission process. Applicants for a dual degree program must be accepted separately to each program, either at the time of initial enrollment or during the first semester.

Once enrolled, students should consult with academic advisers in both programs to coordinate their curriculum. Dual degree course requirements for each program are listed below.

The dual degree program combines advanced skills in communication with in-depth knowledge of international relations to prepare professionals to meet the challenges of strategic communication in an increasingly complex global environment. Applicants for a dual degree program must be accepted separately to each program, either at the time of initial enrollment or during the first semester of study.
