HOMELAND SECURITY AND CYBER RESILIENCE (M.S.)

The Executive Master of Science in Homeland Security and Cyber Resilience is an interdisciplinary program designed for mid-career professionals looking to develop or expand their expertise in modern complex security challenges without having to take a break from their demanding careers. In this entirely online program, you will examine how governmental agencies, private institutions, and other organizations plan and determine viable, responsive, and resilient solutions to local, regional, national, and global security issues.

Drawing on veteran practitioners and academic professionals from across Seton Hall University, students confront today's homeland and cyber security challenges with the latest policy and theoretical tools for analysis and action. This flexible, interdisciplinary 10-course program includes classes with Seton Hall's top-ranked School of Diplomacy and International Relations (https://nam12.safelinks.protection.outlook.com/?url=https%3A %2F%2Fforeignpolicy.com%2F2024%2F07%2F30%2Finternational-relations-school-rankings-university-undergraduate-masters-phd-programs%2F%23anchor-2&data=05%7C02%7CAnna.Calka%40shu.edu

School of Health and Medical Sciences, the Law Enforcement Ex-

School of Health and Medical Sciences, the Law Enforcement Executive Leadership Program, and the School of Law (https://www.shu.edu/news/grad-programs-again-ranked-among-top-programs.html). Whether you're in the military, law enforcement, government, or the private sector, Seton Hall's online Executive M.S. in Homeland Security and Cyber Resilience can help you advance your career and become a leader in the field.

Why Study Homeland Security and Cyber Resilience?

In today's interconnected world, cybersecurity and homeland security are inextricably linked. Just as cybersecurity is no longer solely the concern of computer programmers, domestic security challenges on the home front are increasingly internationalized. As the threats evolve, so do the skills needed to meet those threats. Seton Hall's online Executive M.S. in Homeland Security and Cyber Resilience links these two critical fields of study in a single program to educate future leaders and security practitioners. In a world where digital devices outnumber people and security threats are constantly evolving, homeland and cyber security leaders are needed now more than ever. At Seton Hall University, we will teach you how to innovate and respond to these future threats. By enrolling in Seton Hall's online Executive M.S. in Homeland Security and Cyber Resilience, you can be part of the solution and earn your advanced degree from anywhere in the world.
