

ATHLETIC TRAINING (M.S.A.T.)

The Master of Science in Athletic Training program (MSAT) is intended to prepare graduates to critically analyze and convey information to patients, colleagues and other health professionals. These clinicians will be able to provide a broad range of patient care services and perform research and administrative responsibilities. This is accomplished through students and faculty building collaborations, participating in professional organizations in athletic training, and administering athletic training services.

The mission of the Master of Science in Athletic Training Program is to prepare students to become competent and independent clinicians who will enhance the quality of patient health care and to advance the profession of athletic training. The program teaches and provides practical experiences to enable graduates to assume leadership roles both within the field of athletic training, and within the community.

This is a two year, 64-credit, six-semester Professional Level Master of Science Degree Program. Students develop the knowledge and skills needed to perform as athletic training clinicians and to grow and adapt to the rapid changes in the profession and health care. Upon program completion, students will be thoroughly prepared for the Board of Certification Examination (BOC) and to enter the profession as athletic training clinicians. Additionally, the curriculum prepares students for the Strength and Conditioning Specialist (CSCS) examination.

Accreditation

The Master of Science in Athletic Training is a CAATE accredited professional graduate program. The Commission on Accreditation of Athletic Training Education (CAATE) maintains educational standards for accredited athletic training education programs.

Admission

- Baccalaureate degree from an accredited institution
- Cumulative grade point average (GPA) of 3.0 on a four-point scale. However, applicants not meeting the cumulative 3.0 GPA requirement are encouraged to apply and will be seriously considered
- Completion of the following pre-requisite courses with a grade of "C" or better:
 - Human Anatomy & Physiology (with lab) 8 credits
 - Biological or Exercise Science 3 credits
 - Physics (with lab) 4 credits
 - Chemistry (with lab) 4 credits
 - English 3 credits
 - Statistics or College Math 3 credits
 - Social Sciences 6 credits
- Fifty (50) hours of clinical observation with an athletic trainer
- Official transcripts from all colleges and universities attended
- Current certifications in CPR/AED for the Professional Rescuer
- Letter of recommendation from an athletic trainer
- Two additional letters of recommendation required
- Completion of applicant essay question

- Student must read, sign, understand and meet the Standards of Essential Functions of the School of Health and Medical Sciences and the MSAT program.
- If English is not the native language, a student must submit a Test of English as a Foreign Language (TOEFL) Score Report documenting a paper-based score of 550 or above, a computer-based score of 213 or above, or an Internet-based score of 79 or above
- Graduate Record Examination (GRE) is not required.

Qualified students are admitted without regard to race, color, religion, age, disability, natural origin, sexual orientation, ancestry or gender. Students with incomplete prerequisites may apply; however, they must state how they will satisfy the prerequisites by the end of the Spring semester prior to the start of the program. All prerequisite courses must be completed no longer than 10 years prior to the application date.

Code	Title	Hours
Curriculum Requirements		
<i>Professional Year I</i>		
GMAT 6000	Fndtns of Athletic Training	6
GMAT 6101	Human Physiology	3
GMAT 6111	Functional Human Anatomy	3
GMAT 6121	Prin Evaluation Athletic Train	4
GMAT 6131	Research Methods I	1
GMAT 6141	Research Project I	1
GMAT 6151	Clinical Practicum I	2
GMAT 6201	Fndtn Therapeutic Intervention	3
GMAT 6211	Kinesiology	3
