

SCHOOL OF HEALTH AND MEDICAL SCIENCES

The School of Health and Medical Sciences, established in 1987, is a professional school within the University structure. The School's mission is to prepare healthcare professionals to assume leadership roles in the healthcare arena. To achieve this goal, a variety of unique and innovative degree programs are offered utilizing a multi-institutional/integrated approach to health sciences education.

The School combines the expertise of Seton Hall University with the resources of affiliate healthcare sites to provide exemplary academic and clinical education in health sciences and health administration.

The School's emphasis on interprofessional education, a forward-thinking approach to healthcare education, prepares healthcare leaders of tomorrow to focus on patient-centered care and to make a difference in their patients' lives and their communities. This innovative team-based approach reflects the future of healthcare delivery; Seton Hall is one of only a few universities using this model. All graduate classes are held on the Interprofessional Health Sciences Campus in Nutley, NJ. For general admissions information, visit the Seton Hall University School of Health and Medical Sciences website (<https://www.shu.edu/health/>) or email shms@shu.edu.
