

PSYCHOLOGY HONORS PROGRAM

Students with exceptional academic credentials and interest in advanced study in psychology are encouraged to apply to the Psychology Honors Program. This program involves the student in the design, execution, analysis and presentation of his or her original research project. This program also may be coordinated with the College of Arts and Sciences Honors Program.

Information about admission to the Psychology Honors Program and additional details about program requirements may be obtained from the Director of the Psychology Honors Program, Dr. Paige Fisher.

Students enrolled in the Psychology Honors Program must complete a minimum of 46 credits in psychology. Additionally, modifications to the psychology major requirements are applied as follows:

Code	Title	Hours
PSYC 3312	Advanced Experimental Psych	4
PSYC 5112	Honors Research *	4
Select two of the following:		2
PSYC 3710	Personality Lab	
PSYC 3226	Behavioral Modification Lab	
PSYC 3228	Social Psychology Laboratory	
PSYC 3224	Cognitive Psychology Lab	
PSYC 3225	Learning Laboratory	
PSYC 3227	Biological Psychology Lab	
Select nine credits of PSYC Electives **		9
Total Hours		19

* Taken in lieu of PSYC 5111 Seminar in Psychology or PSYC 5113 Advanced Seminar in Psychology.

** At least one of these must be a 2000-level course or higher. No more than 6 PSYC elective credits can come from experiential learning courses (Internship, Laboratory Research Experience, or Independent Study). PSYC 1224 Decision-Making and Careers does not count toward psychology major.
