

BUSI - INTRDSCPLNRY BUSINESS (BUSI)

BUSI 1000 Freshman Business Seminar (1 Credit)

This one-credit, discussion-oriented course introduces students to various aspects of business (accounting, economics, finance, information technology, law, management, marketing, and analytics) and their interlinkages. We will accomplish this by studying a major multinational company and some business challenges and opportunities that it currently faces. To help students understand how they can best use their specific talents and interests in the field of business, the course will also discuss career opportunities within each discipline area. Offered: Fall.

BUSI 5011 Audit Field Work I (1 Credit)

Individualized field practice to participate in audit engagements as part of an audit team, gaining experience in areas serving commercial and not-for-profit clients, including audit planning, systems walkthroughs, and testing of inventory counts. With Department Chair permission only. Fall only.
