

# ECONOMICS MAJOR (B.S.B.)

---

## Major in Economics

The major in economics provides students with a solid foundation in the discipline of economics. For undergraduate students majoring in economics, the objectives of the program are threefold: to help develop a thorough understanding of the economic relationships between business, households and government, and the principles governing these relationships; to help develop proper analytical methods and modes of inquiry that will prepare students for careers in business, government and education; and to prepare the groundwork necessary for graduate studies in economics and related fields.

The course offerings of the department enable students to major in economics either through the College of Arts and Sciences or the Stillman School, leading to the degrees of Bachelor of Arts or Bachelor of Science in Business Administration, respectively. Students majoring in economics should plan to take at least one elective per semester during junior and senior year. The department will offer two electives each semester on a rotating basis.

*Note: A major in economics is not offered in the evening.*

## Omicron Delta Epsilon

Membership by invitation. Seniors majoring in economics are considered.

## Economics Major Requirements for the B.S. in Economics

To major in economics, students must earn at least a grade of "C-" in each individual ECON course and earn at least a 2.5 grade point average for all ECON courses.
